

### Hey neighbour, let's connect!

I've applied for a **\$50 micro-grant** from Resilient Streets at the Whistler Centre for Sustainability! Resilient Streets is a program that gives neighbours the funds to start street-level conversations with the goal of building greater connections within our neighbourhood.

Please fill out this form and drop it off at my house if you would like to join me for **food and drinks** to discuss a project or event for our neighbourhood. I will send out an email to coordinate the time that works best.

Thanks!
